CLASSIFIED: COVENANT SPECIES IDENTIFICATION

Know the Covenant enemy. ONI has
uncovered the names of these alien
species. It's your job Spartan to match
them to the aliens you encounter.

MJOLNIR PROTOTYPE ARMOR PROJECT

ONI IS LOOKING FOR NEW CONCEPT ARMOR VARIANTS.

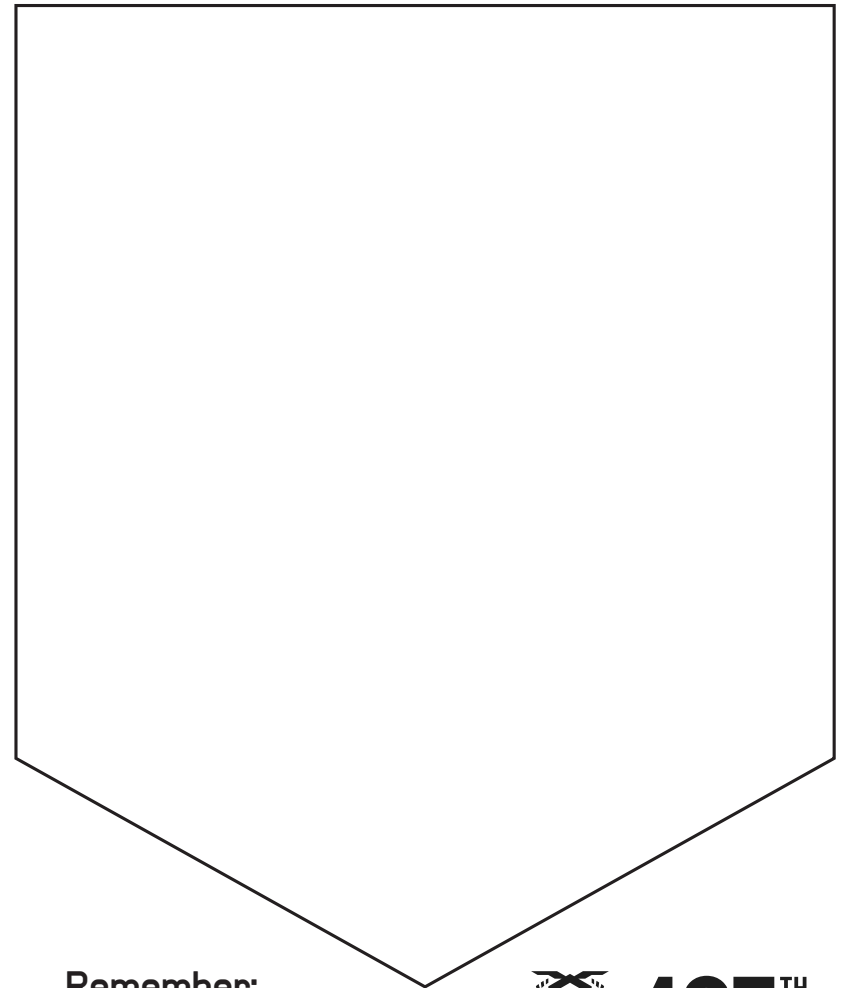

DRAW YOUR
OWN MJOLNIR
POWER ARMOR
CONCEPT.

ITS TIME TO FORM BATTALIONS SPARTANS

What will your emblems look like?

**Here are the Regiments of the

CAN YOU DRAW THE RECLAIMER?

CLASSIFIED: MISSION BRIEFING

As Team _____ entered the structure, they encountered a _____ creature unlike any other before. Oni hadn't prepared them for this. Was their intel wrong? Lieutenant _____ was ready for most anything, but what he saw before him now, a huge _____ guarding the console they needed to reach was going to be a problem. How could something so _____ be able to have hidden away for so long? "Spartan _____," the Lieutenant instructed, "go _____ that thing!" As the Spartan team members moved closer, the creature reacted by _____, sending the spartan reeling. The Team quickly went into _____ to subdue the thing. Spartan _____ quickly dropped some cover fire and the Lieutenant pulled out a _____ and lobbed it at the creature. The Creature made a noise that sounded like a _____ and made the Spartans _____. The creature then _____ and collapsed. I don't know what that was our team encountered on that Forerunner planet of _____ but we completed our mission. It's in Oni's hands now to figure it out, or what's left of it.

The Covenant are using invisibility modules to hide sensitive items. Can you spot the differences in the before and after scans provided by ONI to the UNSC?
